Registered by Societies Registration Act, 1860

8 divisions · 64 districts

www.bpssdf.org

520+

training institutions

45,000+

learners trained each year

8 · 64

divisions and districts

Who we are

Registered and recognised private training institutions, TVET providers, trainers and entrepreneurs under one coordinated platform.

BPSSD Foundation is a non-profit, non-political, voluntary and non-communal organisation formed by training institutions, trainers, entrepreneurs and professionals in Bangladesh's private sector skills development.

It coordinates technical and skills training institutions, assures training quality and develops competence, contributing to the employability of the national workforce and to remittance earnings at home and abroad.

Transparency

Decisions and accounts open to members

Accountability

Annual report and independent audit

Good governance

Elected committee, fixed tenure, quorum

Public welfare

Income spent only on declared objectives

520+

Training institutions on the register

700

Approved members

45,000+

Learners trained each year by member institutions

80+

Trades covered by approved competency standards

8 / 64

Divisions and districts covered

How we work

01

Coordinating institutions

Bringing lawfully registered private TVET institutions onto a single, effective platform.

02

Assuring quality

Quality assurance, curriculum, assessment and certification against national and international standards.

03

Building capacity

Training of Trainers, workshops and continuous professional development.

04

Connecting partners

Working with NSDA, BTEB, ministries, industry and development partners.

Quality assurance support

Quality systems, assessment methods and certification to national and international benchmarks.

Trainer & assessor development

TOT, workshops, seminars and continuous professional development.

Curriculum & competency standards

New trades and standards aligned with labour-market demand.

Inclusive skills

Wider access for youth, women, persons with disabilities and the unemployed.

Research & innovation

Skills-demand studies, best practice and recommendations to authorities.

Policy dialogue & advocacy

Consultation at government, private and international levels.

Aims and objectives

01 A single, coordinated platform

02 Quality assurance

03 Coordination with authorities

04 Professional development

05 New trades and standards

06 Inclusive skills development

07 Knowledge and best practice

08 Alignment with SDGs and ILO

09 Local and international collaboration

10 Other lawful activities

11 Policy dialogue and advice

Not political, not for profit

Provided that: The Foundation does not engage in political activity, commercial profit-making, or any activity contrary to prevailing law.

Contribution to the Sustainable Development Goals

1

No Poverty

Employment and self-employment pathways

4

Quality Education

Quality assurance, curriculum and certification across TVET

5

Gender Equality

Wider access for women to trades and technical careers

8

Decent Work

Employability, competency standards and remittance earnings

10

Reduced Inequalities

Access for persons with disabilities and marginalised communities

17

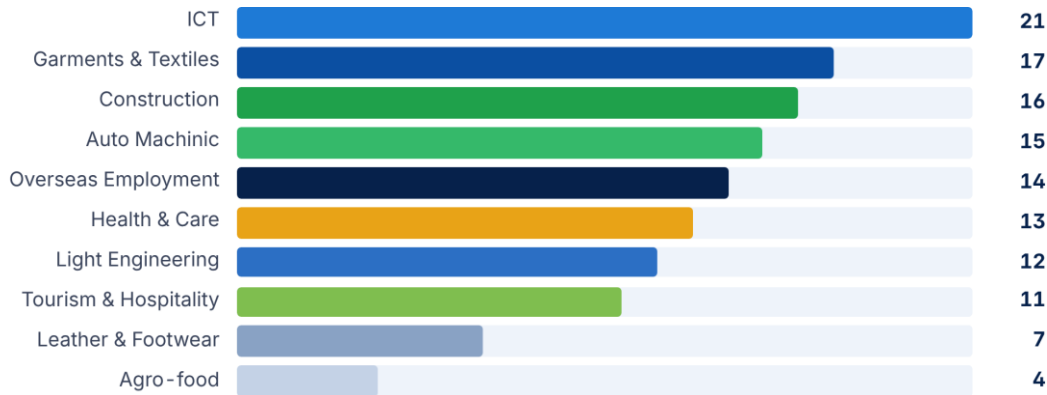

Partnerships for the Goals

MoUs and joint ventures with government, industry and international bodies

Skills development is a cross-cutting goal: every course approved, trainer certified and institution coordinated feeds employability, decent work and reduced inequality.

Our work across ten sectors
